

Sunflyer:

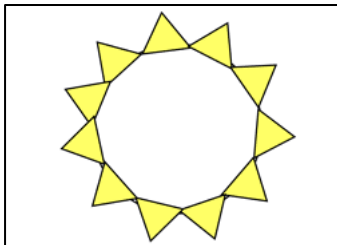

Materials needed:

Paper plate; Craft paper; Buttons; Small piece of thin ribbon; Three (or more!) long pieces of ribbon; Glue; Scissors

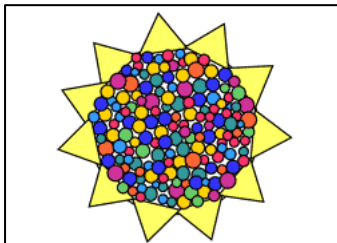

Method:

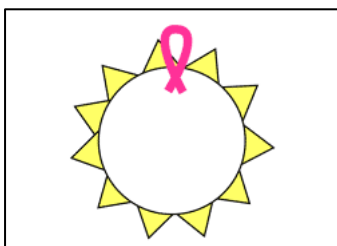

1. Cut out triangles from craft paper (we chose yellow colour).

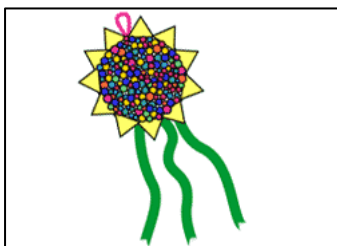

2. Glue the paper triangles all around the inside rim of the paper plate.

3. Glue on buttons of various colours and sizes to cover the centre of the plate. (Instead of using buttons, you can experiment with coloured paper bits, toffee wrappers, coloured cotton wool or anything else you find interesting.)

4. Once the glue has dried and the buttons are in place, turn your sunflyer around. Attach a loop of thin ribbon to the back rim of the plate to use as a hanger.

5. Finally, glue on long, ribbon strips to the bottom ... and watch them dance in the wind!

Why don't you send us a picture of your unique work of art? We can exhibit it in our online gallery.
